## WORK EXPERIENCE

### Front-end developer Comrex pvt.

08/2022 - Present

Islamabad

IT Service and IT Consulting

#### Achievements/Tasks

- Working as key member of front-end development team in the company.
- Recently got promoted from intern to front-end developer post.

## PROJECTS

### Comrex Shop Smart

- Designed and developed the front end of Comrex Shop Smart, a mobile shopping application, using React Native. Ensured a seamless and responsive user experience on both iOS and Android platforms. .

### MyArticle

- Designed and developed an Articles Web Application utilizing React.js for frontend development and Firebase for authentication. This platform provides a secure and personalized experience for content creators and readers, facilitating the sharing of knowledge, insights, and expertise with the world.

### Create-Post

- Developed a web application with Firebase Authentication, leveraging the versatility and security of the platform to empower users to share their thoughts, ideas, and creativity with the world. This project utilized React.js for the frontend, seamlessly integrating with Firebase for user authentication, resulting in a personalized experience for both content creators and readers.

### PortfolioApp

- Developed a dynamic and visually engaging Portfolio Web Application using React.js to showcase my skills, projects, and professional journey in web development. This interactive platform highlights my expertise and accomplishments in the field.
